STATE SOVEREIGNTY!

White Supremacy! And Repudiation

THIS IS LIBERTY!

OUR MOTTO:
NEVER DESTROY THE REPUBLIC!

OUR PLATFORM:

THE CONSTITUTION OF 1861, AND THE REPEAL OF THE CIVIL RIGHTS ACT.

OUR DOCTRINES:

This is a MAN'S GOVERNMENT, made by WHITE MEN, for WHITE MEN, and their posterity FOREVER!

Born with the White Bedrockment!

Total Repudiation of the monstrous Yam-
ke War Debt; Constitutional
Bonds repudiated by an unconstitutional
Motion; styled itself a Congress, in the pre-
sentation of an Unconstitutional Crisis, for
the accomplishment of an Unconstitutional
and Horrid Plan.

Born with Bondholders and Taxes!

Subscription of the Military to the Civil
War, and the War Department.

Down with the Trapset?

Equal Taxation and the Rightful Repre-
sentation of the People.

Another Rebellion!

Revolution must be born by every Recov-
eration Force by Forces. Violence by Viol-
ence; and I surmise should be overthrown
it needs be, by the Bayonet!

Down with Test-Oaths & Registration!

FIVE LA REPUBLIQUE!

It is reported that the devil has taken up
his abode in a California girl. When did he
leave Knoxville? ***

The Chinese have lately been massacring
missionaries, and probabilities exist that
it is their butcher kind, they're right!

The Glasgow Times bows to the force of
events and suspends. It acknowledgment
batteries silenced but hopes somewhat longer
live again. ***

We are especially elated over any one
feature of the glorious triumph in this State;
it is that Frank Blair has been elected to the
Legislature. He's the sophomore who
should be a leader.

A Michigan lady recently showed her
regard for her husband, by casting him
to pieces, with a hatchet. Blood-swept
gentleman. For they shan't be converted
into martyrs, and nothing but a scoundrel
will do it.

The Col. Hayward, sterilized the beaten
in the Hamilton district, his prowess, is
the same that managed the H-angled and
St. Joseph road during the war. A minor
scampt doesn't breathe. Blair, the liberal
candidate beat him badly, for which we are
very thankful. ***

Mansion Donon's "Living-dreams" again
been heard from. He's still circumlocution
among his beloved niggers and hippo-
tamuses, in all their native ignorance and
nakedness. Hasn't been set on the side
board yet, as a cold meat dish, by Green's
epicurean husband.

Bennie Butler's "holy" Finance for
Radical elements. Was up with England over
the Alabama claim. He had "Not any
blue blouse, and really round the flag,
tramp, tramp, tramp" in the squealed
Yankee Doodle, in ones. Not nor Joseph,
as he knows oft!

Another sweetly blushing pink on the
magnolia-petaled platform--"progress" and
"liberty"! now she's an undressed girl.
Calum George's shown, the bold Yankee
"liberal"! Shiehly-aptured Mayor of
Richmond. Put of York, and the French
Tun-Yard Boxes--one of enough
troubles, author of enough difficulties, in
Virginia, to have damaged a dozen better
men. This lovely Calum went to the pen-
itentiary, for five years, for a seven thousand
dollar forgery! Ha! ha! What! Punish
a Jacob high-priest, indulging a Parson
saint--penitentiary a legal bather--merely
for forgery or perf'! Hysterical detail
Stop such tomfoolery, before every official
station and function in the land, is impelled
and labelled "To Let"! ***

An Indiana wedding. A man marries his
third step-mother, who has three living
children by his father. He thus becomes
step-father to his own step-mother. Three
of his cousins, all brothers, marry three of
his wife's sisters. In ten years, he'll be
kin to whom? And what kin? If so, how
so, why so, and much so? Won't all
go to a lunatic asylum, before they figure
it out? With them will go old mid-
wives, old lawyers, old doctors, honest
old and simple folk, whose last
occur anywhere in the civilized world, ex-
cept in disorganized, disorderly, which is
still represented in the unwholesome
United States Senate, by the vice-cracking, lecherous
libertine, Morton! Blessed is he that stayeth
untangled! ***

We understand that a prominent Radical
is a neighboring state, and that it is his
gentle opinion, that "the atrocious creature
who edits the Lexington Citizen, ought
to be sent to the penitentiary for life." Hal-
lo! for her! It's enough that she served
it, was sent to that execrable institution,
the whole Radical party, from the be-
sotted, helter-skelter, hour, who wallows
in the White House, to the last insignificant
dog of a mailing register, who would wear
a striped uniform, in sixty days! And
if the devil ever gets his due, the whole
hideous conglomeration of political mon-
strosities, perverted plunders, assassins,
libertines, and usurpers, of which this
"loyal" and virtuous institution is obscene
tall-piss, will be long and a respectable
feast, where even little dexter will be
unconsciously callous--not for life,
but for eternity! Heaven speed it!

In compliance with innumerable re-
quests from every portion of the united
States, we will receive attention, and, so far as possible, the desire
to increase the burdens of the people
stay at least till the people can regain
a little of their lost ability to pay.

These are some of the items of busi-
ness that it is likely will engage the
legislature.

The President is tired of taxation.

The President will order a military
force to be sent to Georgia, to preserve
peace during the coming election.

Ding, the Colored Lieut., Governor
of Louisiana put crap on his door for
Gen. Lee. ***

Just as we go to press, we have rec-
eived a ringing and statesmanlike
setting forth of True Democracy, in
the shape of a letter from Hon. Sam'l.
E. Glover, of St. Louis. Although a
private communication, we shall take
the liberty of publishing it next week,

The luxury of Radicalism cost the
State of Georgia \$230,000 for its last
session of the Legislature. In 1862,
even in Confederate money, the expen-
ses of the session were only \$70,000;
and who so loyal, that he pretends to
say the latter was worth five times as
much as the former?

In compliance with innumerable re-
quests from every portion of the united
States, we will receive attention, and, so far as possible, the desire
to increase the burdens of the people
stay at least till the people can regain
a little of their lost ability to pay.

The annual message of our presi-
dential bore, is said to be about a
finger-length long. Its most impor-
tant feature is the recommendation of a
universal Amnesty act, doing away
with all the political disabilities im-
posed by the bogus Fourteenth Amend-
ment. ***

Mr. Drake has resigned his seat in
the U. S. Senate, in obedienee to the
invitation of the people, at the late
election. By the grace of Ulysses, he
goes into the court of chancery, at better
pay. It is hinted that Governor Mc-
Clung will convene the old dead legis-
lature, to fill Drake's vacany, with some
shister whom the people do not
want--himself perhaps. We shall see
in a few days. ***

At noon, November 22, Le Imperial says
the general acceptance of the Spanish crown
by the Duke of Alba, received in this
city on Sunday last. A good option
had reason to keep last Thursday as
a day of huge thanksgiving.

Hoover's majority in New York
city foots up \$2,250.

What lies Fulton is beer.

THE LEGISLATURE.

This body will meet on the 11th Jan-
uary, proximo, and will be composed
in the popular belief, by a gaudy pro-
pensity to demonstrate, those who,
we hope, will lend themselves to a
faithful labor to restore our State to
true republican principles, and rid it of
all those odious and obnoxious features
left in by Drake and those who have
followed him to his death and burial.

The session should not be a long one,
though there is much to do. The Leg-
islature should inaugurate measures of
reform and economy first; and one of
the best lessons in this way, would be
a short business session, with proper
regard to reforms in all departments.
The great lead at both lung and spigot
should be stopped.

The calling of a convention to re-
model the constitution will probably
be the first important business; but
whether an existing ordinance will be
deemed best is still embosomed in the
future. If any should be passed, it will
probably have more especial reference
to the county courts of the State, now
most exclusively in the hands of
haters, no more fit for their places than
a bull for a china store.

Still, those gentlemen holding office
under the prestige of McClell and
internal bare, had as well look the
matter in the face, take time by the
tormentor, espouse liberal principles, leave
lost stultate non-sense, and make
the tarest weather possible with the
new order of things. This evolution,
on their part, and it may be that
they will save us, for a truth, their
late principles are becoming far more
admirable now than they were popular
at the time. We never hope to see dem-
ocracy as proscriptive as Radicalism has
been, nor by any means. We never
desire to see a registry law that will
entitle us to representation--the very
same of anti-republicanism--but we desire
a thorough reform in registration, or
the total abolition of the law; and we
feel sure that with the new legislature
this will be done.

By increasing the cost of transporta-
tion, by increasing railroads, and there-
by reducing the cost of transportation,
it suffices to postpone the onset, nearly
one-half of the crop which the west-
ern farmer is compelled to send to the
sea board for market.

It imposes a duty of 60 per cent on
every pane of glass which the poor
man buys; thereby turning over to the
pockets of some protected glass manufacturer.

which can be bought for \$2.50 in currency,
sell for \$10 in gold.
